† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

Hip & Ridge Shingles

- Formulated with a shadow line to allow for distinction along ridge lines
- Increased exposure allows for quick installation
- No additional cutting required on-site with pre-manufactured perforations for easy separation
- Consistent system warranty — ProEdge® Hip & Ridge Shingle warranty corresponds with the Owens Corning™ Shingle Warranty installed†

The most important part of the roof? All of them.

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside. The Owens Corning™ Total Protection Roofing System™^ gives you the assurance that all of your Owens Corning™ roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.

^Excludes non-Owens Corning™ Roofing Products such as flashing, fasteners and wood decking.

The cap shingle to finish the job right. ProEdge® Hip & Ridge Shingles

Fast Installation

- Perforated for easy separation. No additional on-site cutting required.
- Pre-cut edges create a clean, defined roof line
- Larger exposure requires fewer pieces to achieve coverage compared to strip shingles.

Added Protection

- Pre-applied continuous sealant bead for quick adhesion
- Consistent system warranty and performance†
- Class F Wind Rating‡

Enhanced Aesthetics

- Shadow line provides strong distinction along ridge line
- Color coordinated to compliment Owens Corning™ laminate shingle line
