

Roof Pros completely replaced the roof of our house in July 2013 and we were very pleased with the outcome of the entire project. Curt was always very professional and friendly , knowledgeable about his products, and thoroughly communicated the steps involved in the process of replacing our roof. His planning, scheduling, and adherence to the set timeline for the job as planned was done with exceptional care. The work ethic of the roofers themselves was unsurpassed and they worked diligently and meticulously despite the extreme heat. In addition, the care they showed in preserving our foundation plants and terraced garden plantings exceeded our expectations. In addition, the cleanup of any nails or shingles that may have fallen to the ground was very thorough. Based on our experience, we highly recommend Roof Pros.
